

Sticky Bugs

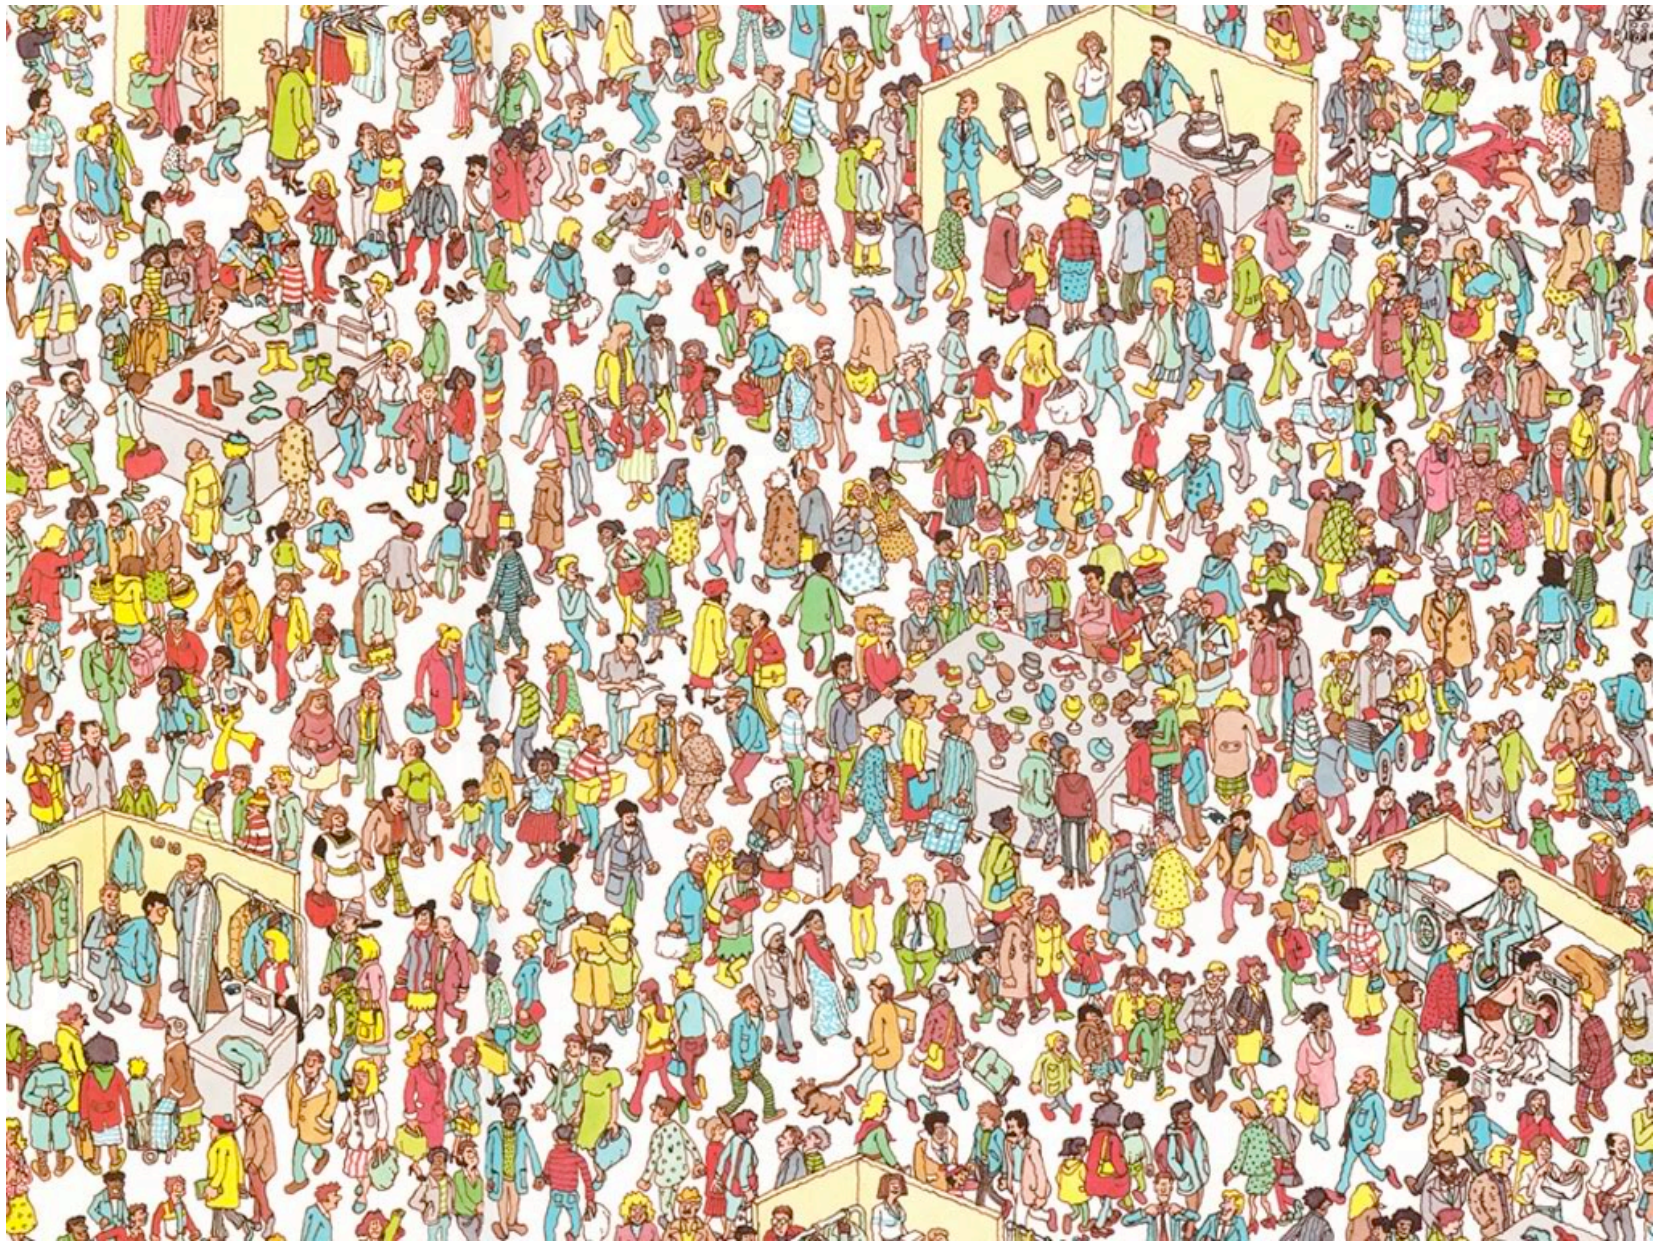

YES- Net (Young Environmental Scientist Network) Stream Ecology Unit

What observation skills do you use to
find Waldo?

Your Challenge....

- Using the sticky trap in front of you, find and count the number of Mayflies, Stoneflies and Caddisflies on each trap.
- Make notes about other interesting critters you see – can you figure out what they are?
- Use the ID guide to help you, be careful of look-a-likes!
- Ask for help if you need it!

What is the story being told by our data?

- At your visit to Cary – how many larval Mayflies did you find in the leaf packs?
- How many adult mayflies were on the sticky traps?

Do you think mayflies have emerged from the stream yet?

What do these data tell us?

Date	Mayflies (L)	Mayflies (A)
3/26/2013	19.5	
4/3/2013	17.5	
4/11/2013	16	
4/17/2013	27	
4/24/2013	51	3.2
5/1/2013	69	0.2
5/7/2013	74	0.4
5/14/2013	168	1.8
5/22/2013	71	2.0
5/29/2013	63	6.2
6/6/2013	76	4.0
6/12/2013	65	1.2
